

“Medicine isn’t our life, people are. We take the time to listen to you and to answer any questions you may have. We will thoroughly evaluate your condition and explain all your options to you. We will help educate you along the way, and we’ll show you how to live a healthier lifestyle. We stay on the leading edge of new techniques and procedures, so we can help get you back to your life as quickly and as safely as possible.”

MOUNIR Y. BORNO, MD, FACC

Board-Certified in Cardiovascular Disease and Interventional Cardiology
by the American Board of Internal Medicine

Delivering a higher level of care to his patients

“I never forget that behind every medical record is a person with family and friends who want their questions answered, their concerns addressed and their peace of mind restored. That’s why I will provide you with the personal care and compassion you deserve. You will notice this from the minute we first meet until long after your treatment is finished.”

Fellow: American College of Cardiology

Fellowship: Cardiovascular Disease and Interventional Cardiology,
University of Oklahoma, Oklahoma City, OK

Internship/Residency: Internal Medicine, University of North Dakota, Fargo, ND
